

DEPARTMENT OF PHYSIOLOGY

HOW DOES NERVOUS SYSTEM MEDIATE INFLAMMATORY RESPONSE;

From laboratory to clinic

“Therapeutic implications of vagus nerve stimulation”

Prof. Dr. Bruno Bonaz

Grenoble Institute des Neurosciences (GIN), Clinique Universitaire d’Hépatogastroentérologie

“Enteric nervous system as modulator of intestinal immune homeostasis”

Assist. Prof. Dr. Gianluca Matteoli

Department of Clinical and Experimental Medicine, Translational Research Center for Gastrointestinal Disorders (TARGID), University of Leuven

“The role of the appetite regulating peptides in the vagal stimulation-induced anti-inflammatory effects ”

Assist. Prof. Dr. Meltem Kolgazi

Department of Physiology, School of Medicine, Acibadem University

Monday, March 28, 2016 (13:30 -17:00)

Acibadem University, Kerem Aydınlar Campus, C201
